TITLE: Junior PCB Designer
REPORTS TO: Design Manager
STATUS: Part / Full Time
AVAILABLE: Immediately

Job Qualifications

Jr. PCB Designer with a minimum of from one to five years experience. Experience with Mentor PADs software a definite plus. Experience with the following also a plus: Orcad Schematic Capture, CAM350, and Microsoft Excel. Salary is based on experience and capabilities. Part-time is possible depending on hours available.

Job Description

Responsibilities will include generating footprints, netlist creation, and layout. Additional responsibilities, depending on experience, will include schematic capture using Orcad, panelization and Gerber generation using CAM350, some mechanical design using CAD software. There is lots of potential for growth and increased responsibility.
