

Robson Technologies, Inc.

Innovative Test Solutions That Meet Your Every Need.

We need to find a company that offers turn-key solutions for all of our test requirements. Their products need to work with our current equipment and lower our cost of test. What else should this company be able to handle?

Edge to edge visibility while testing our wafer level packages

Hybrid, Package on Package and Multi-Chip Module testing

Device level heating and cooling

Then it's settled
We need to call RTI !

Custom burn-in sockets

Custom designed fixtures including test electronics

See how we do it at
